## President's Report

Welcome to the latest instalment of the magazine. I don't even know where the last month went, suddenly it's almost October and our wonderful editor is messaging us going "WHERE IS YOUR REPORT!!" Sorry Anthony!

Well lets start by saying well done to everyone that attended the last general meeting, you may have noticed for the October meeting I've called it the October Catch up. This is in an endeavor to help us change up the meeting concept and help drive towards a more enjoyable, inclusive, fun, more social and probably shorter format. This is a direct result from your ideas, opinions and feedback.

Another shout out has to go to those of you who are getting out on organized trips, out on your own adventures and especially leading trips. Thank you for sharing images of what you've been up to on our Facebook group. These are the kinds of posts that inspire us to get out and do what it is that we love, whether it's slopping around in the mud, camping out on a bush block or clawing your way up to a lookout for a spectacular lunch spot, that's the beauty of being a responsible 4WDriver, the beauty of being able to get out away from the crowds and the drone of everyday life with a select group and experience those special places.

We, the committee are working hard to steer this club on the course that you the members are helping to plot. I am very excited for some of the things that we have coming up in the next few months, we have a heap of new members joining each month, we have some great ideas for trips coming through and we have social events and more on the way. You will by now have surely seen the poll on fb asking for your thoughts about charities to fund raise for and that will be another focus for the club going forward, there are many worthy causes and I think picking a different one each year or when ever the club calls for it will really help us to spread the good.

I'm unfortunately not going to be attending the October catch up as I will be in Tasmania for work but will hopefully be joining in via facebook which is another thing we are going to try, we are hoping to be able to hold a facebook live style event simultaneously with the catch up in a hope that we can get more engagement and reach more of our members. This is definitely not an excuse for you to park your arse on the couch at home and not come to the hall if you can, you certainly can't win raffle prizes, eat delicious super or enjoy the banter and comradery without being there in person.

All in all it's an exciting time to be part of the Werribee 4WD club and I can't wait to get out there soon in our new rig, whether its assisting the DTU with training or finding that pearler of a lunch spot at which to crack out the barbie and soak in the serenity with a cleansing ale.

Please encourage others to check us out on our website, please like share and comment on our facebook page but most importantly please get out there on the tracks, please join in on trips or better still offer to lead one or ask about support to lead one.

Take care, drive safe see you soon.

Take care, drive safe see you soon.

## Alan Kendall

In 1985 Alan Kendall wanted to share his love of Four Wheel Driving with other likeminded people in the Werribee area. An advert was placed in the Werribee Banner and the Werribee & District 4WD Club was born. 37 years later we have an amazing club full of life long friendships thanks to Alan.

Alan also spent 47 years in the Werribee CFA, holding virtually every position, was founding member of the Werribee Caravanning Club, Werribee TowBars and many more associations.

The Werribee & District 4WD Club Commemorates Alan Kendall, Annually awarding the Alan Kendall Memorial Trophy to the Club Member who contributes most, and best represents the core values of our club Family, Fun, Friendship.

## November

### Wombat - Easy Tracks & BBQ - 27th Nov.

Hosted By Chris Butterworth

Penciling in a sociable, family-friendly trip out to Wombat.

The rough plan is to meet opposite the Greendale pub, then pick our way through some tracks towards Nolans Creek Picnic Area where we'll have a fire, BBQ, and hopefully get the kids to run around and have fun.

Not putting any hard limit on numbers at the moment, but we might split into a couple of groups for driving up the tracks.

Please Register your expression of interest [here](#).

## December

### Social Event, Lake Eppalock, Camping and water sports - 26th Dec -7th Jan

Hosted by Daryl Evans.

We are staying in the unpowered camp sites over Christmas. We will also be taking our water toys IE Jet Ski's. Any one that wants to come up for for a week or so, a few days or just a day trip is more than welcome. Ring the park and book your site. Ask to stay near me or far away from me, whatever you want. You even may be able to get a powered site or a cabin if your lucky.

Planning on Sitting around the fire of a night, sitting by the water during the day and playing on the skis. Will probably also do a day trip or two into Bendigo for a feed. Maybe even a lunch one day at a winery. Very casual, come and go as you please and do whatever you want.

## How to run a Club Trip

It's easy to run your own trip, here are the steps to running a great club trip.

- Contact the Trip Co-Ordinator [tripcoordinator@werribee4wdclub.com.au](mailto:tripcoordinator@werribee4wdclub.com.au)
- The Trip Co-Ordinator will forward on required Trip register etc via email – Print out prior to the trip
- Create an Event on Facebook
  - a. Go to Facebook Member's page
  - b. Click Events,
  - c. Click + in top right-hand side,
  - d. In person – Then add date & times,
  - e. Location could be the meeting place, Add description, This should be amount of spots available, Required recovery gear, Required training level or Easy, Medium, hard. Meeting place and time to meet. (Remember to make your meeting time 20 – 30 minutes earlier than departure time to allow filling out Trip Register and group chat about the trip.
  - f. Invite all members.
  - g. Click Create Event.
  - h. Member's will reply with name and car number e.g.: Trev & Wassana Car #1,
  - i. Next car will indicate Name & Name Car #2 and so on.
  - j. Once the trip is full members will reply Reserve Name & Name Car #1 – the reserve car will then slot in if there is a cancellation.

Its recommended to limit the number of Cars to 10, if it becomes popular you can find another trip leader to run two groups.

### **On the Day**

Items for the pre-trip discussion.

- Introduction of Trip leader, Tail End Charlie, and general introduction of members on the day
- Allocate a member to run the trip report (usually whoever arrives late or first to get a "fine")
- Convoy Procedures.
- It's generally worth putting experienced members between inexperienced members and introduce new members.
- On departure get each car to do a radio check (UHF channel 27), nothing worse than losing someone because they can't hear instructions or direction.

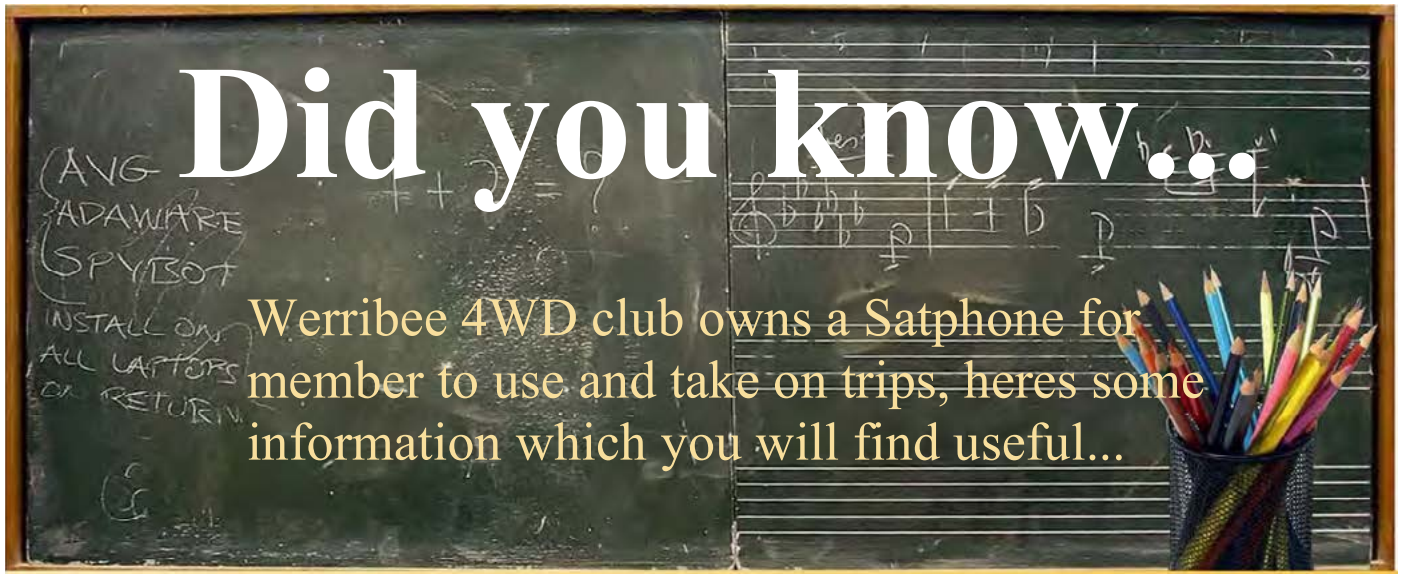

### **After the trip**

- Follow up your trip with a fun post on the Members Facebook page.

## **Mt Disappointment - Sunday 25th Sept.**

We set out to challenge ourselves, and that's just what we did.

Wandong IGA provided the perfect jumping off point for our adventure in the woods, taking us directly to some of the best tracks in the forest. Our group included a mix of vehicles including an old Hilux and Patrol (both solid front axle), several Prado's, and three IFS dual cab utes.

We entered on Main Mountain Road. After some initial navigation issues, we found ourselves passing Andersons Garden Campground, a beautiful but busy spot. We made our way up boundy road: a steep track, but in good condition making easy driving. Reaching the top we switched onto Harry's Nose West which is a tight winding track with steep drops on one side and spectacular views. Again this was no challenge but a nice drive.

Towards the top we turned onto Harry's Link Road for a minor obstacle including ruts and a small bog hole followed by a climb, though these was still easy going.

From here we made our way towards Quarry Road, one of the more interesting sections of Mt Disappointment and where we ultimately spent most of our time.

Quarry Road provides numerous options for level of difficult. Our first major challenge of the day was navigating some deep ruts on a slope. The first two cars through enjoyed the benefit of a solid front axle and picked harder lines crossing over the ruts. The Prado's also proved themselves capable vehicles, though selecting smarter lines through. The IFS utes made it look harder, lifting wheels and having to take a more controlled approach. But their drivers took it in their stride.

Next up was a winding road along the top of the ridge facing a couple of bog holes and narrow winding track.

Here you can find both scenic lookouts for a picnic, and multiple options for some terrifying descents over steep rock steps and big rocks. We opted for the easier options, which still required careful navigation over some rock steps, as well as crossing over the ruts with careful wheel placement to avoid the drop just millimetres away.

# Werribee District 4WD Club

The terrain grew more rutted as we progressed to the bottom of the hill. The Hilux running 33's and having no business to do so ripped off a mud flap whilst flexing through the ruts. Not quite a sick giraffe, but perhaps a sick Llama

Reaching the bottom, we were faced with the potential for a hill climb to get out. I worried that getting up a hill with similar terrain in vehicles without lockers might see us getting out of the forest in the dark. Fortunately Nylander Spur Track offered much more sympathetic terrain.

Undulating hills with the occasional bog hole provided a much more relaxing experience, with just enough spice to keep things interesting.

As the late afternoon light casted golden beams through the trees, the track became quite serene. Now we found an old steam engine, as well as some cars that perhaps shouldn't have gone so deep into the woods. The climax of Nylander Spur Track is descent into a creek followed by a sharp turn up a steep incline. Whilst this presented little difficulty, it was like stepping into a fairy tale: the sound of birds echoing round the forest and the babbling brook under foot.

Reaching the top of the track our group divided. Those who pressed on made their way to Sailor Jack Track. With views across the whole valley, this is a spectacular location. But the view does little to comfort you as you plunge down a steep descent. This is the perfect track for drivers new to steep terrain. It scares the pants off you but is relatively easy. We enjoyed it so much we did it twice.

# Werribee District 4WD Club

To end our day, three stragglers journeyed on to the Flowerdale pub. The epitome of a country pub, when we arrived there was a live band playing and cold beer flowing. Well worth another visit to spend a few more hours enjoying the atmosphere.

This marked the end of our trip. Not only did we have a great experience, but also managed to pick about 4 big bags of rubbish from along the tracks. It's crazy what people throw out in the bush. It was a beautiful day out, with some nice steep tracks and deep ruts, all in mostly stock 4WDs. We probably only covered 25% of what was planned. I can't wait for the next trip out and more explorations of the forest.

## Basic Training - 3rd Sept. & 30th Oct.

The volunteer instructors have done it again. Given up their time to assist new members to understand their new vehicles and the basics to four-wheel driving. Please give them your special thanks.

The three-hour theory was preceded by an excellent meal at the Hoppers Club. The following Saturday the group made their way out the training quarry ground near Bacchus Marsh where the forecast was for rain but luckily it held off until we finished. The weather was very damp leading up to the day resulting in the water crossing filling up and ground lubrication on the hilly bits. This made for some interest challenges on the day which was handled very well by all. There was a variety of vehicles including a Hummer H3, Toyota 80 series and 105 series and a couple of Hilux's and Prado's
